

Software Design Meeting Minutes

Date: 15/05/2024

Time: 14h46

Location: MSL

Attendees:

- Brendan Griffiths[Client]
- Athini Mgagule [Minutes-Taker]
- Prince Dlomo [Scrum Master]
- Khumoetsile Marope
- Siphosakhe Mkhwanazi
- Vutshila Mashimbyi

Opening:

Meeting was called to order at 14h46 by Brendan Griffiths

Review Of Previous Meeting:

- The user stories and UATs were documented in the previous meeting
- The user verification code was discussed, and it was noted that it runs with minimal errors

Agenda Review:

- Client Requirements
- Review of Login and Signup Pages
- Distribution of Tasks
- Next Steps

Decision Made:

- Incorporate the color purple into the design as per the client's request.
- Remove limitations on the number of funding applications a user can submit.
- Modify the signin page to automatically detect the user type without manual selection.
- Handle scenarios where a user may have multiple roles (e.g., both applicant and fund manager).
- Implement code coverage for testing purposes.
- Adjust the existing login and signup pages to improve functionality and resolve any issues.

Action Items:

- Athini and Khumo: Frontend development for user dashboards
- Prince: Implement admin privileges, specifically approve fund managers functionality
- Vutshila: Enhance website to auto-detect user type during signin
- Siphosakhe: Explore third-party authentication options for signin page

Planning for next steps:

- Regular progress reviews will be conducted to track the development process, address any challenges encountered, and ensure alignment with project objectives.
- Regular updates will be provided to the client regarding progress and any modifications made based on their feedback or additional requirements.

- All team members will ensure thorough testing of their respective features and implementations to maintain code quality and functionality
- Documentation of all changes, decisions, and implementations will be maintained for reference and future development iterations.
